

# COLLECTORS' CONCLAVE

# CATALOG DATA BASE

The Exhibition at the Collectors' Conclave is an educational event. We hope that visitors will come away from the experience with fresh information about different collections and have a better appreciation of their importance to our culture. Exhibitors may want to consider making tent cards or using place setting holders to identify some or all of the pieces on display and may also want to have business cards or an information sheet available to give away for future contact with interested guests at the exhibition.
