

**A RAMPAGING ELEPHANT
KILLED A FATHER AND HIS
SEVEN-MONTH-OLD BABY,
LEAVING SEVEN OTHERS
INJURED — WHAT CAN BE LIFE
AND DEATH TO AFRICANS IS
JUST A SWEET AND CARING
GENTLE GIANT TO AMERICANS.**

**AFRICAN
LET IT!**

What is the difference between Western organizations telling Africa how to manage its wildlife resources in the 21st century and a 19th century French premier proclaiming that —

The higher races have a right over the lower races, they have a duty to civilize the inferior races?

Racist rants in colonial times have the same sound as animal rights groups today. They are dictating how Southern Africa must deal with an abundance of elephants and prohibiting the sale of renewable rhino horns that can discourage poachers, meet international demand, and support conservation needs.
